

Taking on cancer? Team up with the best.

Access the top experts in the country,
from the comfort of your own home.

When facing cancer, getting the correct diagnosis and access to the latest cancer research is critical to achieving the best possible outcome.

Your Carrum Health benefit ensures that if you or your covered dependent is diagnosed with cancer, no matter where you are in your journey, you'll have access to a team of specialists available through AccessHope. These specialists will review your case and recommend the best treatment plan possible, providing you with confidence during a challenging time.

What is AccessHope?

AccessHope: Delivers expertise from renowned National Cancer Institute (NCI) – Designated Comprehensive Cancer Centers including: City of Hope, Dana-Farber Cancer Institute, Emory Healthcare and Winship Cancer Institute of Emory University, Fred Hutchinson Cancer Center, and Northwestern Medicine and the Robert H. Lurie Comprehensive Cancer Center of Northwestern University.

AccessHope provides expert medical opinions, remotely reviewing your diagnosis to ensure you have the best treatment plan possible. Gain confidence and peace of mind, all from the comfort of your own home.

Through AccessHope, you'll have access to leading-edge cancer expertise and services, including:

- **Cancer Support Team:** Access to compassionate oncology nurses who can answer cancer-related questions.
- **Expert Advisory Review:** Request that an AccessHope medical expert reviews your case. This specialist will provide recommendations to your treatment plan based on groundbreaking insights and leading discoveries for your specific type of cancer, while communicating with your doctor so you can stay close to home.

In addition to the remote expertise, Carrum Health may also cover cancer treatment costs for you and your covered dependents, so you can focus on healing.

For more information, register today and connect with a Carrum Health cancer care navigator.
